Namba Gear Introduces Shaka Laptop Messenger Bag

High Performance Bags for Musicians and DJ's

Monrovia, CA, August 14, 2008:

Namba Gear announces their 3rd product offering of high performance bags, backpacks and accessories for musicians and dj's. The Shaka Laptop Messenger Bag was created to provide an optimum carrying solution for up to a 15" laptop computer along with personal items.

The evolution of the hand-held digital audio recorder makes the Shaka bag a perfect solution for carrying your laptop computer along with a digital recorder and a small mobile audio interface.

Named for the famous Hawaiian hand sign with flexible meanings of "hang loose, good, cool and righteous", the Shaka bag is a flexible laptop carrying solution. Lockable zippers for the laptop compartment provides extra security, a super thick shoulder pad which softens and redistributes bag weight, and even a convenient carry handle are a few of the special features. The Shaka Laptop Messenger is available in Mayan brown, charcoal grey and olive green.

Namba Gear products are available via musical instrument & dj retailers as well as through their online webstore.
